

WHITEPAPER OF FARMER'S BEP-20 TOKEN

VERSION 1.4

AGRI FUTURE

WHAT IT IS ?

Agri Future is a BEP-20 token developed on Binance Smart Chain to enable rural peoples to buy and sell agricultural products and lands using cryptocurrency

QUICK INFO

- BEP-20 Token
- 1 Billion Maximum Token
- ICO & IEO starts at 15 August, 2023
- Short form AGRF

VISION

- To enable rural users to buy and sell their products using cryptocurrency.
- To literate rural users about cryptocurrency and make them get benefit by using it
- To enable anyone to buy various agricultural products and land without worrying about cross currency conversion or cross border payment.

WHAT IS ROADMAP ?

15 August, 2023

We'll start ICO and IEO

- We'll sell our token at an initial low price for three months, after that we'll list it in exchange for public to trade.

20 Nov, 2023

We'll launch NFT

- We'll start NFT at www.agrf.io where people can buy, sell and trade Agricultural products using cryptocurrency (AGRF). We'll also facilitate buying, selling and leasing agricultural land using NFT.

IMPORTANT NOTICE

This White Paper is intended to present relevant information to potential AGRF purchasers (Purchaser) in connection with the proposed generation and sale of AGRF Coin, including information about the underlying software applications and blockchain protocol used to create and distribute AGRF.

The information contained in this White Paper is not intended to be exhaustive and the statements included in this White Paper are not intended to create a contractual relationship.

Nothing in this White Paper shall be deemed to constitute a prospectus of any sort or a solicitation for investment, nor does it in any way pertain to an offering or a solicitation of an offer to buy any securities in any jurisdiction. This document is not composed in accordance with, and is not subject to, laws or regulations of any jurisdiction which are designed to protect investors.

ABSTRACT

Know the AGRF

Blockchain and cryptocurrency have rocked the global financial services industry. People are realising and starting to accept that these technologies are driving significant and necessary change in financial technology (FINTECH) and streamlining inefficiencies in various industries.

When we created Agri Future Token in 2021, we had a vision to accelerate the agricultural products buy and sell with a digital currency. Because, as per survey, 60% of the world population depends on agriculture for survival.

That's why we wanted to bring crypto revolution to those people who are dependant on Agri products. We wanted to give them a platform where they can sell their products to the global peoples. Hence, we have named it "Agri Future".

The Agri Future eco-system improves access to cross border trade and services for users, breaking down complex transactional processes and fee structures - faster, thus enhancing World-wide user participation thereby improving global economic engagement.

Not only selling agricultural products, we also discovered a unique NFT based way to sell and buy agricultural lands using blockchain and our token. This will enable people to buy and sell their lands at a better price without worrying about brokers, fakers and payment issue.

TECHNICAL INFORMATION

Instrument: AGRF

Blockchain: Binance Smart Chain (BEP-20)

Token Name: Agri Future Token

Total Supply: 1 Billion (1,000,000,000)

Coin in Circulation: 0.7 Billion (700,000,000)

Contract Address: 0xacc59094c89bc3f47bee274f1bf9def15d0ce67c

Roadmap

01

25th February, 2022

We'll start ICO and IEO to sell token at lowest possible price that most users can take benefit from it.

02

15th Aug, 2023

We'll increase the price of our token and continue our ICO until 15th Aug, 2023

03

NFT Platform at 20th Nov, 2023

We'll launch our signature marked NFT platform which is uniquely designed to sell not only digital products but also physical agricultural products and lands.

04

25th September, 2024

We'll launch our coin in various exchanges where users can do public trading on it.

TOKEN ECOSYSTEM

Know our Blockchain
ecosystem

Binance Smart Chain

The Binance Smart Chain (BSC) is a blockchain network that runs in parallel to the Binance Chain. In contrast to the Binance Chain, BSC features smart contract functionality and compatibility with the Ethereum Virtual Machine (EVM).

The Binance Smart Chain offers our community the added interoperability of facilitating their investments through Ethereum-based wallets, such as a meta mask. An added advantage of issuing AGRF tokens on the BSC is that it offers our community an affordable blockchain experience through smaller transaction fees compared to the Ethereum Network

Pancake Swap

PancakeSwap is a Binance Smart Chain decentralized exchange (DEX) for swapping BEP-20 tokens. To enable AGRF Token's buying and selling, PancakeSwap offers our community the ability to exchange their BNB for Agri future Token (AGRF)

Agri Future Token (AGRF)

Agri Future Token (AGRF) is a BEP20 token issued on the Binance Smart Chain with a total supply of 1 Billion tokens. A direct presale was issued of 0.7 Billion tokens (70%) of the supply.

Planned Use Case

Why we have developed this token is to assist farmers and others related with agriculture to sell their hard earned products in a unique NFT marketplace. "Agriculture Remains Central to the World Economy. 60% of the Population Depends on Agriculture for Survival"

But, do farmers or related with agricultural products get their best value of product ? Definetly not, that's why farmers suicide rates are increasing everywhere.

We have brought an unique platform where people can sell their physical goods (even agricultural lands) using NFT and get real value of their products from different corner of the world.

They can use our token to buy and sell agricultural related products in our website, trade them or even exchange those. We've also setup escrow services for few products like land purchase over NFT and so on. Our token will mainly used by farmers and buyers to buy and sell their agricultural products. Thus we'll be able to make rural farmers blockchain educated also.

**Save Agriculture !
Save Farmers !**

 www.agrf.io

**WHO IS MANAGING THE
ENTIRE PLATFORM ?**

**WHO IS
BEHIND THE
CONCEPT ?**

This unique Platform is brought to you by Agri Future LLC, Agri Future is dealing with agricultural and real estate products.

Agri Future LLC has been registered under Dubai Companies Act.

Agri Futre "AGRF" project has been supported by Thoughtworks, a Singapore based software company and few blockchain techies from India.

**AGRI FUTURE OR
AGRF IS A BEP-20
TOKEN**

**Developed for Farmers and
Agriculture Professionals to
facilitate their products
exposure and trade**

Has been developed by keeping in mind that everybody should take benefit of Blockchain technology. And without farmers, world cannot survive, so farmers should also get benefit by using blockchain technology.

Will be used at the same www.agrf.io website where a unique marketplace will be launched for everyone to sell their farming products and get orders from all around the world without fearing losing hard-earned money.

Thank you for showing interest with us. For any query, drop a mail to us.

Cryptocurrency investment is subject to market risk.
